SUBJECT INDEX

Absorption
of water, by leather substitutes from split leather-textile laminate 321
Acacia
bark, tannins from, diffusion of, in hides 454
polyphenols and tannins from ten common species of, in India 280
tannins from 9 species of, in Kenya 324
Acetic acid
gelatin solutions stabilized by, hydrolytic degradation of 451
reactions of, with chromium in chrome tanning, stoichiometry and extinction coefficients of complexes formed in 279
solvents, in pickling of sheepskins 283
Acetonitrile
polymers with acrylic acid and butyl acrylate and methacrylic acid, as retanning materials 489
Acetylation
of hides, chrome tanning in relation to 243
Acidity
leather bleaching in relation to 246
Acids
aromatic, hide elastoplastic and structure properties in relation to 149, 150
di-, in agents for increasing basicity of mineral tanning liquors 121
organic, derma structure and properties in relation to 452
titanium tanning in relation to 456
Acremonium chrysogenum
enzymes from, proteolytic, in hide unhairing 150, 454
Acrylamide
derivatives, crosslinking of collagen with 200, 273
fillers from chrome leather shavings and, for retanning 275
Acrylic acid
esters, polymers with casein, graft, for finishing 275
polymerization of, graft, onto hair surface of furs, for luster enhancement, review on 450
polymers with acetonitrile and butyl acrylate and methacrylic acid, as retanning materials 489
polymers with acrylonitrile, syntans, for better physical properties and less color 200
Acrylic polymers
adhesives, drying of leather bonded to glass plates by, coating formation in 454
adhesives, for drying of semifinished leather 485
binders, for finishes, particle size determination of, turbidimetric methods for 243
in chrome tanning with decreased chromium 245
coatings, for leather, plasticizers for, alkylcarboxyethanolamine napthenates as 145
coatings, in leather finishing 396
finishes, for leather splits 397
finishes, in ultrafine particulate aqueous emulsions 364
finishes, water-based, in shoe industry 150
for finishing soft leathers 473
hydrocolloid solutions of, for coat dyeing of leather 282
as leather finishes 203
in leather finishing, new technologies for 82

pigskin leather retanning with, network structive and tensile properties in relation to 201
syntans, dispersing and surfactant properties of 277
syntans, containing chromium, for retanning 151
as syntans, for better physical properties and less color 200
Acrylonitrile
fillers from chrome leather shavings and, for retanning 275
graft copolymers with gelatin, finishes, plasticizers in, permeability and tensile strength in relation to 120
polymers with butadiene and methyl methacrylate, rubber, methacrylic acid-stabilized, coatings, for leather 455
polymers with casein, graft, for finishing 275
polymers with ethyl acrylate, as leather finishes 203
polymers with gelatin, graft, as leather finishes 362
polymers with gelatin, graft, hydrolytic degradation of acetic acid-stabilized gelatin solutions in relation to 451
Acylation
of hides with chemical reagents 204
Adhesives
acrylic polymers, drying of leather bonded to glass plates by, coating formation in 454
acrylic polymers, for drying of semifinished leather 485
chlorinated tannins, water-resistant 201
from chrome leather wastes by alkaline hydrolysis 452
solid, animal glue-based 283
Adsorption
of amphoteric polyelectrolytes, pH and sodium chloride effects on 363
of mineral substances by dermis during liming 453
Agarose
gels, rigidity determination of, by surface waves 400
Aging
of leather, determination of, thermal deformation in 485
Air Pollution
prevention of, solvent recovery systems for 202
by solvents in finishing with organic compounds, material balance in 246
ALCA
Annual Meeting Exhibits 316, 355
Balance Sheet for 1991 and 1992 442
Budget for 1992 93
Call for Papers for 1993 Annual Meeting 242, 315
Candidates for the 1993 Election 316
Cash Flows for 1991 and 1992 446
Changes in Fund Balances and Members Equity for 1991 and 1992 445
Council Meeting Minutes 92, 235, 312, 435
Directory Changes 237, 320, 393
1992 Economic Census 318
Financial Statements 1990 and 1991 98

John Arthur Wilson Memorial Lecture Introduction 155

Minutes of 1992 Business Meeting 176
Notes to Financial Statements 447
O'Flaherty Service Award to Leo P. Devarenne 174
President's Remarks Opening 1992 Annual Meeting 153
Prize Paper for Twenty-second IULTCS Congress 69, 91, 142
Program for 1992 Annual Meeting 108
Program for 1993 Annual Meeting 390, 424
Proposed bylaws amendments for changing responsibilities of Vice President and classification of funds 37, 68, 89
Report of Committee on Methods 178
Report of Education Committee 180
Report of Independent Accountants 97, 442
Report of New Uses of Collagen Committee 181
Report of Rawstock Committee 183
Report of Research Liaison Committee 194
Revenues and Expenses for 1991 and 1992 444
Revised Guidelines for Fred O'Flaherty Service Award 97
Sponsors of the 1992 Annual Meeting 198
Status of the Association 177
Tentative 1992 Meeting Schedule 107

Alcohols
fatty, ethoxylated, in degreasing of goat- and sheepskins 400
keratin solutions in 398
solvents, in application of 1:2 metal complex dyes 203

Aldehydes
hide treatment with, chrome tanning in relation to 243
polymeric, pretanning with, for pollution prevention 487

Alkanes
leather treating compositions containing fats and waxes and 404

Aluminum
determination of, in leather and tanning materials, titrimetric 153

Aluminum salts
chrome tanning with chromium salts and, in spent pickle liquor, followed by sodium aluminosilicate 363
dicyandiamide-formaldehyde copolymer tanning materials containing 456
leather tanned with, dyeing of, with phosphonated dye 204
recycling of exhausted tanning baths containing titanium salts and, ammonium sulfate concentration in 401
tanning materials from chromium salts and 485
tanning materials from titanium salts and, stability of solutions of, hexamethylenetetramine effect on 484
tanning of pigskins with zirconium salts and, for white soft leather 116
tanning of sheepskins with glutaraldehyde and, chromium-free 455
tanning of sheepskins with mimosa and 367
tanning with, alkaline, for shoe upper leather 282
tanning with, chrome-free, review on 487
tanning with, for chromium-free leather 486

Aluminum sulfate
syntans containing, for decreased pollution 328

tanning of sheepskins with mimosa and 367
Alums
in chrome tanning with decreased chromium 245
tanning with titanium compounds and 398
in white leather manufacture 279
Amadori rearrangement
in hide reactions with chemical reagents 204
Amidosulfonic acid
unsaturated polymers containing, as finishes 364
Amines
reaction products with carbonyl compounds, for aldehyde tanning 363
Amino acids
in fur proteins, review on 399
Aminoalkyl methacrylate
low-toxicity hide treatment composition containing 151
Ammonium chloride
in carbon dioxide deliming 120
removal of, from wastewater from fatliquor manufacture, by treatment with hydrochloric acid 277
Ammonium sulfate
enzyme proteolytic activity in relation to 150
in minimization of nitrogen in deliming liquors 456
in preservation of sheepskin furs 452
in recycling of exhausted aluminum-titanium tanning liquors, concentration of 401
Ammonium sulfatotitanylate
tanning with alum and 398
Anisotropy
of physical properties of fur leather 117
Antimony oxide
in fireproofing of leather 396
Antiseptics
methyl esters of sulfonylpropenoic acids as, for leather manufacture 282
Area yield
of cowhide leather in drying processing, mechanical increase of, review on 203
Aspergillus niger
protease from, in bating 148
ASTM
Report of Committee D-31 on Leather 71
Aureobasidium pullulans
in chrome leather and shoes 466
Automobiles
interiors, leather substitutes for, from powdered leather and proteins and thermoplastic resins 153
leather upholstery for, flame resistance and windshield fogging of 399
seats, upholstery for, from polyurethane foams bonded to leather 368
steering wheels, coverings for, manufacture of chrome leather for 366
Auxiliary agents
leather drying in relation to 116
for leather manufacture, review on 76
Bacillus licheniformis

protease from, in bating 148
BARTON, ANGUS E., Obituary 482
Basicity
heat resistance of chrome leather in relation to 122
of mineral tanning liquors, agents for increasing, from diacids and magnesium carbonate and surfactants 121
Bates
pancreatic enzymes as 401
protease mixtures for 400
proteolytic activity of, assay of, substrates for, hide powder azure and azocoll as 287
Bating
with bacterial and fungal and pancreatic protease preparations 148
of pigskin for soft leather 147
enzyme-assisted 487
enzymes for, collagenase activity determination of 202
protease in, review on 274
Beads
sorbents, from keratin-containing poultry processing wastes, for mercury ions 367
Beamhouse
enzymes in, leather quality in relation to, review on 326
lipase use in process of 128
nonfibrous collagen removal in 201
operations in the year 2000 156
processing, fullness and softness of upper leather in relation to 147
Bedmats
summer, buffalo leather manufacture for 116
Beeswax
emulsified wax blends containing, for leather, preparation and application of 280
Benzene
vapor, sorption of, derma structure effect on 452
1,2-Benzenedicarboxylic acid
hide elastoplastic and structure properties in relation to 149
Benzenesulfonylpropenoic acid methyl ester
antiseptics, for leather manufacture 282
Benzoic acid
derma structure and properties in relation to 452
hide elastoplastic properties and structure in relation to 149, 150
BILLINGS, WAYNE H., Biography 353
Biocides
pentachlorophenol, in leather industry, ban on use of, in Germany 76
Biomass
as raw material for chemical industry, review on 76
BIRBIR, MERAL, Biography 481
Birefringence
transient flow, of collagen solutions 322
N,N-bis (hydroxymethyl) benzoxamide
as tanning material for light-sensitive gelatin emulsion layers 202
Bleaching

of leather, acidity effect on 246
optical, of furs 402
of snakeskins by oxidation 147
of wet-blue hides with potassium permanganate for retanning of soft white upper leather 456
of wet-blue hides with syntans containing chromium oxide 147
Bonding
by fusion, of vegetable-tanned leather parts, electron microscopy of 77
Boric acid
preservative, for goat- and sheepskins 327
Bovine serum albumin
removal of, from hides during brine curing 26, 367
Brine
hide curing with, protein removal during 26
Bromine
organic compounds containing, as intermediates in chemical synthesis, review on 274
Building materials
particleboards, from leather wastes and urea resins and wood 153
Butadiene
polymers with acrylonitrile and methyl methacrylate, rubber, methacrylic acid-stabilized, coatings, for leather 455
Butoxyethyl acetate
solvents containing, for water-based emulsion of nitrocellulose 329
Butyl acetate
solvents containing, for water-based emulsion of nitrocellulose 329
Butyl acrylate
fillers from chrome leather shavings and, for retanning 275
polymers, finishes containing, for leather splits 397
polymers with acetonitrile and acrylic acid and methacrylic acid, as retanning materials 489
polymers with methacrylic acid, adhesives, for drying of semifinished leather 485
Butylamine
polymers with maleic anhydride and methylstyrene, as finishes for leather substitutes from leather fibers 362
polymers with maleic anhydride and methylstyrene, leather substitutes from leather fibers and ... 362
Caking
prevention of, of collagen powder-polymer molding compounds, by surfactants 450
Calcium
adsorption of, by dermis during liming 453
removal of, from gelatin by ion exchange, for decolorization 323
removal of, from gelatin, by ultrafiltration membranes 323
Calcium hydroxide
in chrome leather shaving solubilization by enzymes at alkaline pH 201
Colorimetry
of glass temperature of gelatin 116
of melting of gelatin gels 116
Canaigre
roots, extraction of starch and tanning materials from 123
Candida albicans

in chrome leather and shoes 466
Candida famata
in chrome leather and shoes 466
Candida guilliermondii
in chrome leather and shoes 466
Candida krusei
in chrome leather and shoes 466
Candida lusitaniae
in chrome leather and shoes 466
Candida parapsilosis
in chrome leather and shoes 466
Candida pseudotropicalis
in chrome leather and shoes 466
CANTUA, SERGIO, Biography 140
Carbon dioxide
deliming with 364
deliming with, ammonium chloride in 120
deliming with, optimization of 403
Carbonyl compounds
reaction products with amines, for aldehyde tanning 363
tanning with, for soft white leather 367
Carboxylic acids
hide treatment with, chrome tanning in relation to 243
reactions of, with chromium in chrome tanning, stoichiometry and extinction coefficients of complexes formed in 279
Carboxymethyl cellulose
sodium salt, -gelatin systems, hydrogels, interpenetrating networks of 284
Carrageenan
gels with water, crosslinked, swelling pressure equilibrium of 276
Casein
acrylate-grafted, for finishing 275
coatings, for leather, enzymic treatment of 483
dressing compositions from polymers and 149
glazing of aniline upper leather with nitrocellulose and 279
grafting of, persulfates as catalysts for, for leather finishes 399
methyl acrylate-grafted, for leather finishes 400
methyl acrylate-grafted, in finishing 488
Castor oil
fatliquors containing, phosphorylation of, for manufacture of sophisticated leathers 118
finishes with primers for polyurethanes containing 244
Chains, chemical
of gelatin, conformation of, determination of, by light and small-angle neutron scattering 118
of gelatin, conformation of, determination of, by quasi-elastic light scattering 119
triple helical, of collagen, simulation of 3-dimensional structures of 324
Chemical industry
biomass as raw material for, review on 76
Chinese herbs

fungicides containing, for leather jackets 489
Chitosan
carboxylates, leather pretreatment with, dyeing in relation to 322
pretreatment with, of chrome leather, dyeing in relation to 368
reactions of, with hides and leather, review on 283
Chitosan acetate
leather pretreatment with, dyeing in relation to 322
Chitosan formate
leather pretreatment with, dyeing in relation to 322
Chloride ions
eluted from leather, metal corrosion by 409
Chlorine
adsorption of, by dermis during liming 453
Chlorofluorohydrocarbons
tanning with syntans or tannins in 329
Chloroform
collagen fiber structure in hides and leather in relation to 144
Chlorohydrocarbons
tannins with syntans or tannins in 329
Chloroprene
polymers, finishes containing, for leather splits 397
Chloroquine
preservatives, for goat and sheepskins 327
Chromatography
gas, in pentachlorophenol and sodium pentachlorophenate determination in leather 280
gas, in pentachlorophenol determination in leather 118, 274
liquid, high-performance, pentachlorophenol residue determination in leather by 280
Chrome
determination of, in leather, dichloromethane as solvent in 321
fatliquor-gelatin-, interaction in systems of 144
formaldehyde-phenol-urea copolymer syntans containing 148
masked solutions of, changes in chromium complex composition of 276
Chrome tanning
with aluminum salts and chromium salts in spent pickle liquor, followed by sodium aluminosilicate 363
changes in chromium complex composition of masked chrome solutions 276
chromium reactions with carboxylic acids in, stoichiometry and extinction coefficients of complexes formed in 279
chromium reaction with zeolites in 489
with chromium (III) salts, reactivity in, review on 202
condensation, urea derivative copolymers in 145
of footwear bottoms, recycling of spent tanning liquors in 144
of hair-on hides 453
high-exhaustion, for soft upper leather 368
high-exhaustion, maleic acid isomerization to fumaric acid for 281
high-exhaustion, optimization of 402
optimization of, by multiple recirculation of liquor 279
penetration and binding of tanning agents in capillary-porous derma of hides in 279

physical and structural properties of leather in relation to 401
pretanning with rare earth chlorides before 147
reactive pretreatment effect on 243
recycling in, review on 117
recycling of chrome liquors in 368
research on, review on 245
of sheepskin furs in Rapiderm-type apparatus 455
sodium sulfate and zinc sulfate in, for leather for prophylactic shoes 145
with tanning materials containing acrylic polymers and alum and glutaraldehyde, with decreased chromium 245
wastewater from, chromium recovery from, by coagulation-flocculation-sedimentation with magnesium oxide 281
zeolite effect on 483
Chrome yellow
pigments, preparation of, by lead acetate treatment of chrome tanning effluent 202
Chromium
acrylic polymer syntans containing, for retanning 151
bifunctional syntans containing 150
complexes, changes in composition of, of masked chrome solutions 276
determination of, in leather and tanning materials, titrimetric 153
elution of, from leather by body fluids 281
hexavalent, determination of, in blue shavings 221
leather shavings containing, retanning and filling agents from 321
reactions of, with synthetic zeolites in chrome tanning 489
reactions of, with carboxylic acids in chrome tanning, stoichiometry and extinction coefficients of complexes formed in 279
recovery of, from tanning wastewater by coagulation-flocculation-sedimentation with magnesium oxide 281
reduction of, by sulfonic acids, in preparation of chrome tanning materials 489
removal of, from tanning wastes, design of pilot plant for 146
removal of, from waste leather, iron sulfate solution regeneration by thiobacillus ferro-oxidans in 147
steel pipes plated with, corrosion of, by ions eluted from leather 409
waste leather containing, processing of, review on 324
Chromium (III) complexes
as tanning materials, review on 450
Chromium hydroxide
reaction products with formaldehyde-naphthalenesulfonic acid copolymers, for tanning 487
Chromium oxide
determination of, in semifinished chrome leather, nondestructive 457
syntans containing, bleaching and light fastness properties of, on wet-blue hides 147
Chromium phthalate
tanning material for sheepskin 453
Chromium salts
trivalent, tanning reactivity of, review on 202
Chromium sulfate
syntans containing, for decreased pollution 328
Chromium zirconium sulfate

as tanning materials, review on 367
Cleaning
of sheepskin leather and furs, fatliquors for 403
Coating materials
acrylate-free, crosslinking of, by ultraviolet radiation 20
acrylic polymers, in leather finishing 396
acrylic polymers, plasticizers for, alkylcarboxyethanolamine naphthenates as 145
acrylic rubber, methacrylic acid stabilized, for leather 455
casein or collagen, for leather, enzymic treatment of 483
for colorfast leather and leather substitutes 457
containing powdered leather, for good durability 278
diene-nitrile rubber, fluoropolymers in, for leather 145
hydrophobic, in finishing of leather 456
non-acrylic, curing of, with ultraviolet light, maleates and vinyl compounds in 399
poly (amino acid)-polyurethane, for leather and substitutes 326
from poly (amino acid)s and polyurethanes, for finishes for leather substitutes 323
polymeric, aq. dispersions of, for leather and textiles 122
polymeric, bonding of, to leather, attachment for tensile strength testing machine for determination of strength of 455
polyurethanes, for waterproofing of leather 485
for upper leather, aesthetic and hygienic properties of 452
water-based, leather finishing with 324
Coating process
of cowhide split leather for use in linings and exteriors of shoes 363
formation during drying of leather bonded to glass plates 454
Cockle
lesions of, on lambskins 397
lesions of, on New Zealand lambskins, histology of 39
Cod-liver oil
fatliquors from chlorinated glycerides and animal fats and, for Russian leather 121
Collagen
characteristics of, significance to leather manufacture, review on 451
coagulates from solutions, morphology of 360
coatings, for leather, enzymic treatment of 483
crosslinking of, with acrylamide derivatives 200
crosslinking of, with acrylamides 273
crosslinking of, with dicarboxylic acids 333
derivatives, preparation of, from poor quality or waste hides 151
fibers, fracture of, strain rate effect on 281
fiber structure of, in hides and leather, solvent effect on 144
of furs, amino acid composition of, review on 399
gelatin transition to, kinetics and thermodynamics of, review on 278
hydrolyzates, from chrome leather wastes 403
hydrolyzates, reaction products with fatty acids, as surfactants 247
industrial, development and uses of, review on 451
manuf. of deamidated, from pigskins 203
microfibrils of, simulation of 3-dimensional structures of 325
Myrica tannins reaction with 246

particles, emulsions in cottonseed oil, crosslinking of, with glutaraldehyde for use as carriers..... 366
powdered, manufacture of..... 247
powder, molding compounds from polyethylene and, caking prevention of, by surfactants..... 450
property changes of, by chemical modification..... 283
reactions of, with tannins..... 484
recovery of, from tanning wastes, design of pilot plant for..... 146
regenerated, fibers, treated with tin dichloride for greater strength..... 326
removal of nonfibrous types VI and XII, by beamhouse treatment..... 201
sponges from..... 245
structure formation in, in mineral tanning, mathematical model for..... 145
structure of hides, morphological changes in, review on..... 450
thermal denaturation of, thermodynamic analysis of..... 397
transient flow birefringence of solutions of..... 322
triple helixes of, simulation of 3-dimensional structures of..... 324
Collagenase
activity of, determination of, in hide processing enzymes..... 202
Colloids
particles, dispersity and electrokinetic potential of,
in solutions of chrome tanning materials and fatliquors..... 484
particles, stability of, in chrome tanning material-fatliquor systems..... 488
Color
of chrome leather dyed with acid metal-containing 1:2 complex dyes..... 243
control of, in leather dyeing, review on..... 282
fastness of, of chromatic color dyes in leather dyeing..... 327
matching of, for fur dyeing, computers in..... 273
Colorfastness
of leather and leather-substitutes, coating materials for improved..... 457
Computer applications
in color matching for fur dyeing..... 273
Conformation
coiled, of gelatin, physicomechanical properties of..... 151
of gelatin chains, determination of, by light and small-angle neutron scattering..... 118
of gelatin chains, determination of, by quasi-elastic light scattering..... 119
Contraction
of silicone rubber in vulcanization compositions for pattern formation on leather..... 454
Copper
ions, gamma ray-induced sol-gel transition of gelatin in relation to..... 360
removal of, from gelatin by ion exchange, for decolorization..... 323
CORREIA AMADO, ANTONIO P., Obituary..... 141
Corrosion
of metals, by ions eluted from leather..... 409
Cosmetics
keratin hydrolyzates for..... 404
COT, JAIME, Biography..... 481
Cottonseed oil
collagen particle emulsions in, crosslinking of, with glutaraldehyde, for use as carriers..... 366
Cracking

thermal, of hydrocarbons for olefin production, review on 327
Crosslinking
of acrylate-free coatings for leather, by ultraviolet radiation 20
of collagen particle emulsions in cottonseed oil, with glutaraldehyde, for use as carriers 366
of collagen, with acrylamide derivatives 200
of collagen, with acrylamides 273
of collagen, with dicarboxylic acids 333
of hides, chrome tanning in relation to 243
of hides, maturation effect on, review on 326
Cryogenics
in recovery of volatile organic compound emissions 245
Curing
of hides, with brine, bovine serum albumin removal in 367
of hides, with brine, protein removal during 26
Cyclohexanone
solvents containing, for water-based emulsion of nitrocellulose 329
De Castro, Baltasar, Biography 88
Decolorization
of gelatin by metal removal by ion exchange 323
Decomposition
artificial, of furs, mechanical properties in relation to 396
enzymic, of chrome leather wastes 380
Defleshing
of hides, silica sols in 205
Degradation
hydrolytic, of acetic acid-stabilized gelatin solutions 451
Degreasing
agents, from detergents and formaldehyde and sodium carbonate, for gooseskins 328
of Australian woolly sheepskins, with nonionic surfactants, hydrophile-lipophilo balance effect on 280
of pickled goat- and sheepskins, with ethoxylated fatty alcohols and polyethylene glycol nonylphenyl ether 400
of pigskin for soft leather 147
processing parameters effect on 397
De La Maza, Alfonso, Biography 481
Deliming
with carbon dioxide 364
with carbon dioxide, ammonium chloride in 120
with carbon dioxide, optimization of 403
liquors, minimization of nitrogen in, by addition of ammonium sulfate 456
Denaturation
thermal, of collagen, thermodynamic analysis of 397
thermal, of hides and leather, thermodynamic analysis of 52
Derma
structure and properties of, organic acid effect on 452
structure of, benzene vapor sorption in relation to 452
Design

of pilot plant, for collagen recovery from tanning wastes 146
Detergents
from chrome leather wastes hydrolyzates 452
degreasing agents containing, for gooseskins 328
DEVARENNE, LEO P.
O'Flaherty Service Award to 174
Dibutyl phthalate
waterproofing agents containing paraffin and, for sheepskin and suede leathers 244
Dicarboxylic acids
crosslinking of collagen with 333
Dichlorobutadiene
polymers, finishes containing, for leather splits 397
Dichloromethane
recovery systems for, for air pollution prevention 202
as solvent in chrome determination in leather 321
Dicyandiamide
polymers with formaldehyde, containing aluminum, for tanning 456
resin, finishing of sheepskin with 483
tanning materials containing urea and 457
Diffusion
of acacia and eucalyptus bark tannins in hides 454
self-, of water in gelatin gels, determination of, by quasi-elastic neutron scattering 120
Dihydroxydiphenylsulfone
copolymers with formaldehyde and phenolsulfonic acid and urea, syntans 148
Dimethyl sulfoxide
collagen fiber structure in hides and leather in relation to 144
Discoloration
prevention of, in fur printing 147
yellowing, prevention of, of white volleyball leather 279
Dispersing agents
acrylic polymers, lubricating properties of 277
Dyeing
of aluminum- and chromium-tanned leather with phosphonated dyes 204
with aniline dyes, siloxane pretreatment effect on 398
of aniline leather, intensity and levelness of, dyeing process and retanning effects on 296
of aniline leather, process parameter effect on 275
of case leather, simultaneously with waterproofing 148
of chrome leather, chitosan pretreatment effect on 368
of chrome leather, with acid metal-containing 1:2 complex dyes, color in relation to 243
coat, of leather, hydrocolloid solutions of acrylic polymers for 282
coat, of leather, wax emulsions for 282
computerized dye formulation for, review on 245
drum, pigments in, review on 488
of fur hair covering with acid dyes, surfactant effect on 483
of furs and suede leather in nonaqueous medium 455
of furs, color matching for, computers in 273
of furs, plasma treatment effect on 453
of furs, tannins as dyes in 76

of hair-side of sheepskin leather with disperse dyes, surfactant effect on 488
of hair with acid dyes 455
of leather, chitosan carboxylate pretreatment effect on 322
of leather, color control in, review on 282
of leather, color fastness of chromatic color dyes in 327
of leather, dressing with protein hydrolyzates for economical 121
of leather, exhaust, with sulfur dyes 368
of leather, in drum, liquid dyes for 360
of leather, leveling agents for 151
of leather, stability of dye-liposome systems in 459
of leather with anionic dyes, pretreatment for 282
of leather with diazo dyes 205
of leather with triazine dyes 365
of leather with water-insoluble sulfur dyes 404
of leather with water-soluble trisazo dyes 364
methanesulfonic acid in 484
of nonwoven bases for leather substitutes 484
processing parameters effect on 397
of sheepskin furs, surfactant effect on 488
of sheepskin furs with acid and metal complex dyes 200
of snakeskins, review on 274
of suede garment leather 402

Dyes
acid, hair dyeing with 455
azo, 1:2 chromium complex, navy blue, for leather and polyamide fibers and wool 76
chromatic color, color fastness of, in leather dyeing 327
for leather, analysis of, review on 451
-liposome systems, stability of, in leather dyeing 459
liquid, for drum dyeing of leather 360
1:2 metal complex, solvents in application of 203
microencapsulation of, gelatin in 149
reactive, stability of fatliquor emulsions in relation to 484
specialized, for furs 455
triazine, dyeing of leather with 365
trisazo, water-soluble, in dyeing of leather 364

Dressing
of leather, with casein-polymer compositions 149
of leather, with polyurethane dispersions 149
of leather with protein hydrolyzates, for economical dyeing 121

Drying
of hides and leather by microwaves 120
of leather bonded to glass plates, coating formation in 454
of leather, hygroscopic substance effect on 116
of leather, review on 117
of leather, technology of, review on 451
operation research in, for control and optimization 146
of semifinished leather, acrylic adhesives for 485

Ecology

hazards to, of upper leather manufacture 150
leather wet processing effect on 247
Elastic-plastic properties
of leather, fatliquoring effect on 200
Electric conductivity
measurement of, in process control in leather manufacture 325
Electrodeposition
of metals, review on 149
Electrodes
ion-selective, in control of solutions for fur manufacture, review on 119
Electrokinetic potential
of colloid particles in solutions of chrome tanning materials and fatliquors 484
Electron beam
leather sterilization with, ergonomic properties in relation to 483
sheepskin for properties in relation to 452
Electron microscopy
of fusion bonding of vegetable-tanned leather parts 77
Emulsions
of fatliquors, stability of, reactive dye effect on 484
water-in-oil, of collagen particles in cottonseed oil, crosslinking of, with glutaraldehyde, for use as carriers 366
of waxes, for coat dyeing of leather 282
Encapsulation
micro-, of dyes, gelatin in 149
Energy
conservation of, by recycling of tanning wastes, review on 149
Environment
in India, tanning industry effect on, review on 273
protection of, by aqueous finishing, review on 243
protection of, in leather and shoe industries, review on 324
Environmental regulations
for leather industry in Venezuela 419
Enzymes
from Acremonium chrysogenum, proteolytic, in hide unhairing 150
in bating and liming 487
in beamhouse process, leather quality in relation to, review on 326
chrome leather shavings solubilization by, at alkaline pH 201
decomposition by, of chrome leather wastes 380
for hide processing, collagenase activity determination of 202
in hide unhairing 485
in hide unhairing with Acremonium chrysogenum 454
hydrolysis by, of proteins 490
mixtures of, for bating 400
pancreatic, as bates 401
of Penicillium roqueforti, for unhairing of pigskins 401
proteolytic, keratin hydrolysis by, for cosmetics and fodder 404
treatment with, of casein or collagen coatings and pigment concentrates for leather 483
Epoxy compounds

fluorine-containing, reaction products with phosphorus compounds, as fatliquors 398
Ethanolamine
alkylcarboxy derivatives, naphthenates, as plasticizers for acrylic polymer coatings for leather 145
Ethoxylation
of lanolin, for improved properties 400
Ethyl acrylate
fillers from chrome leather shavings and, for retanning 275
polymers with ethylene glycol dimethacrylate and methyl methacrylate, in ultrafine particulate aqueous emulsions, as finishes 364
Ethyl alcohol
determination of, in fur finishes 146
Ethyl cellosolve
collagen fiber structure in hides and leather in relation to 144
Ethylene
polymers with vinyl acetate, leather substitutes from waste leather and 404
N,N'-Ethylenebisacrylamide
crosslinking with, of collagen 273
Ethylene glycol
esters of fatty acids or naphthenic acids containing surfactants, for sheepskins 453
esters of fatty or naphthenic acids, fatliquors containing, sheepskin fur quality in relation to 454
esters of fatty or naphthenic acids, fatliquors containing, sheepskin hair properties in relation to 454
finishes containing 361
plasticizers, in gelatin copolymer finishes, permeability and tensile strength in relation to 120
Ethylene glycol dimethacrylate
polymers with ethyl acrylate and methyl methacrylate in ultrafine particulate aqueous emulsions, as finishes 364
Ethylene oxide
reactions of, with lanolin, for improved properties 400
Eucalyptus
bark, tannins from, diffusion of, in hides 454
Exophila jeanselmei
in chrome leather and shoes 466
Extraction
of starch and tanning materials from canaigre roots 123
Extrusion apparatus
gelatin dissolution in 326
Fastness
of leather, processing effect on 146
Fatliquoring
with ARMKK-based materials 454
of furs, simultaneously with pickling and tanning 361
hygroscopic substances in, leather drying in relation to 116
leather elastic-plastic properties in relation to 200
leather fastness in relation to 146
of leather with ARMKK-based materials 488
process parameters effect on 397

of sheepskins, optimization of 453
waterproofing of leather by, chlorinated paraffin wax in 145
Fatliquors
animated and maleated fatty derivatives 153
castor oil-based, phosphorylation of, for manufacture of sophisticated leathers 118
for chemical cleaning of sheepskin leather and furs 403
chrome-gelatin-, interaction in systems of 144
-chrome tanning materials systems, stability of colloidal particles in 488
composition of, sheepskin fur quality in relation to 454
composition of, sheepskin hair properties in relation to 454
containing surfactants, manufacture of 121
CWF and CZF, for high-grade soft leather 402
emulsions of, stability of, reactive dye effect on 484
from ethylene glycol or propylene glycol esters of fatty acids or naphthenic acids containing surfactants, for sheepskins 453
from fluorine-containing epoxy compound reaction products with phosphorus compounds 398
HG-1, manufacture of, review on 274
leather lightfastness in relation to 455
from long chain fatty alcohols 360
manufacture of, ammonium chloride removal from wastewater from 277
for pigskin leather with good softness and smoothness 404
recycling of lipids from degreased skins in 371
review on 76
for Russian leather, from animal fats and chlorinated glycerides and cod-liver oil 121
salts of phosphated OH-containing glycerides of C_{8-22} fatty acids as 400
salts of sulfonated phosphate esters as 119
solutions of chrome tanning materials and, colloid particles in, dispersity and electrokinetic potential of 484
Fats
exudation of, from leather, inhibition of, with siloxanes 400
fatliquors from chlorinated glycerides and cod-liver oil and, for Russian leather 121
leather treating compositions containing waxes and 404
sorbents for, recycled polymeric wastes for, in fur rolling 203
Fatty acids
aminated, maleated, as fatliquors and waterproofing agents 152
C_{8-22}, glycerides of, OH-containing, salts of phosphated, as fatliquors 400
esters of ethylene glycol or propylene glycol containing surfactants, for sheepskins 453
esters with polyoxyethylene, fatliquors containing, for pigskin leather with good softness and smoothness 404
glycol esters, fatliquors containing, sheepskin fur quality in relation to 454
glycol esters, fatliquors containing, sheepskin hair properties in relation to 454
reaction products with collagen hydrolyzates, as surfactants 247
synthesis of, by oxidation of paraffins, review on 326
in vegetable oils for use in chemical technology, review on 278
Fatty alcohols
long chain, fatliquors from 360
Feathers

hydrolysis of, with proteolytic enzymes, for cosmetics and fodder 404
Feed
from chromium-free leather wastes 118
Felting
of sheepskin furs, processing effect on 452
Ferrocene
derivatives, in lightfastness improvement of dyed leathers 200
Fertilizers
from chromium-free leather wastes 118
Fibers
hide, tanning material penetration and deposition and fixation on 489
leather, interactions with sizes 146
structure of, of collagen in hides and leather, solvent effect on 144
Fillers
chrome shavings as 246
from acrylic monomers and chrome leather shavings, for retanning 275
from chromium-containing leather shavings 321
heat-expandable microcapsules as, for softening leather 398
polymeric, molecular structure of, leather filling properties in relation to 321
Filling
of leather, plasticizers for 282
of leather with polymeric fillers, molecular structure effect on 321
Filtration
ultra-, membranes, metal removal from gelatin by 323
Finishes
from acrylic and urethane polymers, water-based, in shoe industry 150
acrylic polymers as 203
acrylic polymers, for leather splits 397
from acrylic polymers in ultrafine particulate aqueous emulsions 364
amidosulfonic acid-containing unsaturated polymers as 364
binders for, acrylic polymers for, particle size determination of, turbidimetric methods for 243
containing acrylic polymers and polyurethanes and vinyl polymers, for sheepskins 453
containing ethylene glycol and urotropin 361
containing Narthoplast K oil, for shoe uppers, properties of 117
dimethyl siloxane oils as 150
for fibrous leather substitutes, butylamine-maleic anhydride-methylstyrene copolymers as 362
fluoropolymers, for leather waterproofing 145
for furs, analysis of 146
gelatin copolymers, plasticizers in , permeability and tensile strength in relation to 120
from gelatin or its graft copolymers from waste chrome leather 362
grafting of casein for, persulfates as catalysts for 399
for leather, from epoxidized piperylene-styrene block copolymers 325
for leather substitutes, coatings containing poly (amino acid)s and polyurethanes for 323
methyl acrylate-grafted casein as 400
from new chemical materials 153
polyurethane aqueous dispersions 278
primers for, from polyurethanes containing castor oil 244
review on 76

for shoes, review on ... 245
stability of, flexing effect on ... 74

finish stability in relation to ... 74
Flocking
of leather on adhesive backing, for leather substitutes ... 322
Fluorine
epoxy compounds containing, reaction products with phosphorus compounds, as fatliquors ... 398
oils containing, leather finishing with, for good oil and water repellency ... 120

polyurethanes containing, as oil- and waterproofing agents for leather 247
Fluoropolymers
in diene-nitrile rubber coatings for leather 145
in waterproofing finishes for leather 145
Fluorosilicon compounds
soilproofing agents, for leather 146
Fodder
keratin hydrolyzates for 404
Food
gelatin in, review on 149
gelatin uses in, review on 483
Footwear
bottoms, chrome tanning of, recycling of spent tanning liquors in 144
leather bottoms for, finishing of 361
Formaldehyde
copolymers with urea derivatives, in condensation chrome tanning 145
determination of, in fur finishes 146
copolymers with dihydroxydiphenylsulfone and phenolsulfonic acid and urea, syntans 148
copolymers with phenol and urea, syntans, containing chrome 148
degreasing agents containing, for gooseskins 328
determination of glutaric aldehyde and, in leather 365
emission of, from leather, determination of 486
polymers with dicyandiamide, containing aluminum, for tanning 456
polymers with naphthalenesulfonic acids, reaction product with chromium hydroxide, for tanning 487
polymers with phenol, in fur manufacture 488
polymers with sulfodiphenol and sulfophenol and urea, syntans 278
in tanning to wet-white stage 121
in white leather manufacture 279
Formic acid
determination of, in fur finishes 146
reactions of, with chromium in chrome tanning, stoichiometry and extinction coefficients of complexes formed in 279
Fracture
of collagen fibers, strain rate effect on 281
FRANK, TIBERIU SAMUEL, Obituary 482
Fullness
of pigskin upper leather, factors affecting 147
of upper leather, beamhouse processing effect on 147
Fumaric acid
maleic acid isomerization to, for high-exhaustion chrome tanning 281
Fungicides
Polish oil, containing Chinese herbs, for leather jackets 489
semifinished leather treatment of 453
Furniture
upholstery, from polyurethane foams bonded to leathe 368
Furs
binding properties and shrinkage temperature of, gamma ray effect on 397

cleaning of, fatliquors for 403
dyeing of, color matching for, computers in 273
dyeing of, in nonaqueous medium 455
dyeing of sheepskin, with acid and metal complex dyes 200
dyeing of, tannins as dyes in 76
fatliquor interaction with 144
finishes for, analysis of 146
hair covering of, dyeing of, with acid dyes, surfactant effect on 483
leather of, physical properties of, anisotropy of 117
leather of, wastes, triglycerides from, as plasticizers 367
luster enhancement of, by graft polymerization of acrylic monomers onto hair surface, review on 450
manufacture of, phenolic resins in 488
manufacture of, solutions for, control of, by ion-selective electrodes, review on 119
marmot, manufacture of 402
mechanical properties of, artificial decomposition effect on 396
muskrat, processing of, for increasing surface area and improving hair dressing quality 489
nutria, processing of 485
nutria, use of, review on 450
optical bleaching of 402
pickling-tanning-fatliquoring treatment of 361
plasma treatment of, dyeability and hydrophilicity in relation to 453
primary treatment of, with sodium hydrosulfite 363
printing of, discoloration prevention in 147
rolling of, fat sorbents in, recycled polymeric wastes for 203
sheepskin, changes of properties of, during storage 452
sheepskin, chrome tanning of, in Rapiderm-type apparatus 455
sheepskin, dyeing of, surfactant effect on 488
sheepskin, fatliquor effect on quality of 454
sheepskin, felting of, processing effect on 452
sheepskin, preservation of, with ammonium sulfate and sodium chloride 452
sheepskin, radiation effect on properties of 452
soaking and pickling and tanning of 453
specialized dyes for 455
waterproofing agents for, review on 450
Fusion bonding
of leather parts, scanning electron microscopy of 396
of vegetable-tanned leather parts, electron microscopy of 77
Gamma rays
fur binding properties and shrinkage temperature in relation to 397
leather sterilization with, ergonomic properties in relation to 483
sheepskin fur properties in relation to 452
sol-gel transition of gelatin induced by, metal ion effect on 360
Gaskets
leather impregnation with polyamides for 325
GASSMANN, HANS, Obituary 36
Gastric juices
chromium elution from leather by 389

Gelatin
acrylonitrile-grafted, hydrolytic degradation of acetic acid-stabilized gelatin solutions in relation to 451
adsorption of, on mica, pH and sodium chloride effects on 363
chain conformation of, determination of, by light and small-angle neutron scattering 118
chain conformation of, determination of, by quasi-elastic light scattering 118
chrome-fatliquor-, interaction in systems of 144
from chromium-free leather wastes 118
in coiled conformation, physicomechanical properties of 151
dissolution of, in extruders 326
gelation of, kinetics of spinodal decomposition in relation to 360
gels, gelation of, over a range of concentrations 204
gels, melting of, colorimetry of 116
gels, rheology and structure of 321
gels, rigidity determination of, by surface waves 400
gels, water self-diffusion in, determination of, by quasi-elastic neutron scattering 120
gels with water, crosslinked, swelling pressure equilibrium of 276
glass temperature of, colorimetry of 116
glass transition and melting of, DSC study of 403
glue from, review on 76
graft copolymers with acrylonitrile or methyl methacrylate, finishes, containing plasticizers, permeability and tensile strength of 120
granules, solubility improvement of, by coating with water-soluble substances 247
light-sensitive emulsion layers of, tanning materials for, *N, N*-bis (hydroxymethyl) benzoxamide as 202
liquid crystal orientation in 365
maceration in manufacture of, intensifications of 277
manufacture of, from chrome leather shavings 323
metal removal for decolorization of, by ion exchange 323
metal removal from, by ultrafiltration membranes 323
properties and uses in food and pharmaceuticals, review on 483
setting of solutions of, by casting on internally cooled drum 117
-sodium CMC systems, hydrogels, interpenetrating networks of 284
sol-gel transition of, induced by gamma rays, metal ion effect on 360
thickeners for solutions of, from vinyl polymers 368
transition of, to collagen, kinetics and thermodynamics of, review on 278
uses for, review on 149
viscosity of, heating effect on 485
from waste chrome leather, alone or as graft copolymers, for finishes 362
Gelation
of gelatin gels over a range of concentration 204
of gelatin, kinetics of spinodal decomposition in relation to 360
Gels
agarose and gelatin, rigidity determination of, by surface waves 400
of gelatin, rheology and structure of, review on 321
gelatin/water and carrageenan/water, crosslinked, swelling pressure equilibrium of 276
gelatin/water, crosslinked, swelling pressure equilibrium of 276

-sol transition of gelatin induced by gamma rays, metal ion effect on 360
Geotrichum candidum
in chrome leather and shoes 466
GILL, CHRISTOPHER, J., Biography 88
Glass temperature
of gelatin, colorimetry of 116
in gelatin, DSC study of 403
GLAZER, IVANKA, Biography 233
Glazing
of aniline upper leather with casein and nitrocellulose 279
Glue
from chromium-free leather wastes 118
from gelatin, review on 76
solid adhesives based on 283
Glutaraldehyde
in chrome tanning with decreased chromium 245
crosslinking with, of collagen particle emulsions in cottonseed oil, for use as carriers 366
determination of formaldehyde and, in leather 365
tanning of sheepskins with aluminum salts and, chromium-free 455
in white leather manufacture 279
Glycerides
of C_{8-22} fatty acids, OH-containing, salts of phosphated, as fatliquors 400
chlorinated, fatliquors from animal fats and cod-liver oil, and for Russian leather 121
Glycerin
in fatliquoring, leather drying in relation to 116
plasticizers, in gelatin copolymer finishes, permeability and tensile strength in relation to 120
Glycols
solvents, in application of 1:2 metal complex dyes 203
Glyoxylic acid
hide treatment with, chrome tanning in relation to 243
Goatskin
preservatives for 327
tanning, with oxazolidine derivatives 274
wet-blue, softening of shaved, with proteinase 484
Gooseskin
degreasing agents for, from detergents and formaldehyde and sodium carbonate 328
Greasing agents
for leather, review on 144
GUTIERREZ, CONCEPCION, Biography 140
GUZMAN, JUAN M., Biography 140
Hair
dyeing of, with acid dyes 455
sheepskin, fatliquor effect on properties of 454
HALLIGAN, GEORGE, Biography 67
Haloalkyl compounds
in fireproofing of leather 396
Heat
leather resistant to, for safety apparel 322

resistance to, of chrome leather, basicity effect on 122
resistance to, of insole leather, review on 487
Heating
of gelatin, viscosity in relation to 485
Heating value
of hides and leather and solid tannery wastes 402
1,14-Hexadecanedioic acid
crosslinking of collagen with 333
Hexamethylenetetramine
stability of solutions of aluminum-titanium tanning materials in relation to 484
Hexane
collagen fiber structure in hides and leather in relation to 144
Hide powder
azure and azocoll, as substrates for assay of proteolytic activity of bate 287
reactions of, with chitosan, review on 283
Hides
capillary-porous derma of, penetration and binding of chrome tanning materials in 279
chemical modification of 204
collagen fiber structure in, solvent effect on 144
crosslinking of, maturation effect on, review on 326
donkey, lime coating in processing of, for soft leather manufacture 202
elastoplastic properties and structure of, aromatic acid effect on 149, 150
pesticide determination in, by high-performance liquid chromatography 283
poor quality or waste, collagen derivative preparation from 151
preservatives for 281
preservatives for, crust leather examination for residuals from 273
processing of, enzymes for, collagenase activity determination of 202
splitting of, silica sol in 76
thermal denaturation of, thermodynamic analysis of 52
thermal stability of, for chrome leather 203
thermal stability of, moisture content effect on 275
treatment of, apparatus for, hermetically sealed 325
treatment of, low-toxicity composition for, containing aminoalkyl methacrylate and trifluoroacetic acid 151
treatment of, with amphoteric imidazoline derivatives, for improved hand and softness 284
wastes, heating value of 402
wet-white, manufacture of 121
HIGHBERGER, JOHN H., Obituary 141
Histology
of cockle lesions on New Zealand lambskins 39
of cowhide shoe upper leather tanned with Khlorsintem syntan 282
Hydrocarbons
tanning with syntans or tannins in 329
thermal cracking of, for olefin production, review on 327
Hydrochloric acid
wastewater treatment with, in fatliquor manufacture, for ammonium chloride removal 277
Hydrogels
gelatin-sodium CMC systems, interpenetrating networks of 284

Hydrolysis
alkaline, of chrome leather wastes in adhesives manufacture 452
enzymic, of proteins 490
of keratin with proteolytic enzymes, for cosmetics and fodder 404
Hydrophile-lipophile balance
degreasing of Australian woolly sheepskins by nonionic surfactants in relation to 280
Hydrophilicity
of furs, plasma treatment effect on 453
Hydrothermal stability
of chrome leather, aging and processing conditions effects on 283
of chrome leather, processing conditions effect on 324
o-Hydroxybenzoic acid
hide elastoplastic properties and structure in relation to 149, 150
3-Hydroxypropanesulfonic acid
polymers with maleic anhydride and styrene, as thickeners for gelatin solutions 368
N-Hydroxysuccinimido biotin
trypsin treated with, soaking of salt-cured hides in relation to 207
Hygroscopic substances
in fatliquoring, leather drying in relation to 116
Imidazoline
derivatives, amphoteric, hide treatment with, for improved hand and softness 284
Incineration
of waste chrome leather 275
Industrial hygiene
aqueous finishing for improvement of, review on 243
Interpenetrating networks
of gelatin-sodium CMC system hydrogels 284
Ion exchange
metal removal from gelatin by, decolorization 323
Ions
eluted from leather, metal corrosion by 409
Iron
ions, gamma ray-induced sol-gel transition of gelatin in relation to 360
removal of, from gelatin by ion exchange, for decolorization 323
removal of, from gelatin, by ultrafiltration membranes 323
Iron sulfate
regeneration of solutions of, by Thiobacillus ferro-oxidans, in chromium removal from waste chrome leather 147
Isomerization catalysts
thiourea, for maleic acid to fumaric acid, in high-exhaustion chrome tanning 281
Isopropyl alcohol
collagen fiber structure in hides and leather in relation to 144
IULTCS
ALCA Prize Paper for Twenty-second Congress of 142
Council of Delegates Meetings in Barcelona 105
Executive Committee Meetings in Barcelona (Summary) 103
Meeting Notice for XXII Congress 319
Minutes of the Executive Committee Meeting, September 1992 356

Notice for Twenty-second Congress of 143
Prize Paper for Twenty-second Congress of 69, 91
JANY, JOSEPH, Obituary 317
JOHNSTONE, ALISTAIR, C., Biography 67
Keratin
aqueous micelle solutions of 457
films, manufacture of, from wool by dissoln. of, in thioglycolic acid 328
of furs, amino acid composition of, review on 399
hydrolysis of, with proteolytic enzymes, for cosmetics and fodder 404
poultry processing wastes containing, sorbent beads from, for mercury ions 367
solutions of, in organic solvents 398
Keratose
of furs, amino acid composition of, review on 399
Kinetics of decomposition
spinodal, of gelatin, gelation effect on 360
Kinetics of Fischer-Tropsch Synthesis
review on 488
Kinetics of transition
of gelatin to collagen, review on 278
KOEHRMANN, RICHARD HENRY, Obituary 317
KOPKA, ROBERT J., Biography 353
KOROSIN, JANEZ, Biography 233
KOZUH, NEVENKA, Biography 233
LACH, DIETRICH, Biography 310
Lambskins
cockle lesions on 397
cockle lesions on New Zealand, histology of 39
topical treatment of, whitespot in leather in relation to 399
Lamination
of films and sheets of leather powder-polyurethane composites for leather substitutes 284
of leather, for decorative surfaces 487
Lanolin
ethoxylation of, for improved properties 400
Lard
chlorinated, fatliquors containing, for pigskin leather with good softness and smoothness 404
Lead acetate
chrome tanning effluent treatment with, for preparation of chrome yellow pigment 202
Leather
aging of, determination of, thermal deformation in 485
aluminum and chromium determination in, titrimetric 153
aniline upper, glazing of, with casein and nitrocellulose 279
area yield of cowhide, in dry processing, mechanical increase of, review on 203
buffalo, manufacture of, for summer bedmats 116
chemicals and dyes for, analysis of, review on 451
chlorinated phenol determination in, in small concentrations 246
chrome, calfskin, for handbags, processing of 321
chrome, chromium oxide determination in semifinished, nondestructive 457
chrome, color of, dyed with acid metal-containing 1:2 complex dyes 243

chrome determination in, dichloromethane as solvent in 321
chrome, for prophylactic shoes 145
chrome, heat-resistant 122
chrome, hydrothermal stability of, aging and processing conditions effects on 283
chrome, hydrothermal stability of, processing conditions effects on 324
chrome, manufacture of, for coverings for automobile steering wheels 366
chrome, research on, review on 245
chrome, shavings, gelatin manufacture from 323
chrome, shavings, solubilization of, by enzymes at alkaline pH 201
chrome, shavings, retanning and filling agents from 321
chrome, shavings, treatment of, for use in fiber materials 277
chrome, soft upper, manufacture of 368
chrome, wastes, adhesives and leather substitutes and leveling agents from 452
chrome, wastes, chromium removal from, iron sulfate solution regeneration by Thiobacillus ferro-oxidans in 147
chrome, wastes, collagen hydrolyzates from 403
chrome, wastes, detanning of, with polyglycerols 364
chrome, wastes, as fillers and retanning materials 246
chrome, wastes, disposal and recycling of 277
chrome, wastes, enzymic decomposition of 380
chrome, wastes, gelatin from, alone or as graft copolymers, for finishes 362
chrome, wastes, hexavalent chromium determination in blue shavings 221
chrome, wastes, incineration of 275
chrome, yeasts in 466
chromium elution from, by body fluids 281
chromium-free, manufacture of, aluminum tanning in 486
cleaning-polishing towels for, containing paraffin waxes and siloxanes 398
coatings for, aq. polymer dispersions as 122
coatings for, from acrylic rubber stabilized with methacrylic acid 455
collagen fiber structure in, solvent effect on 144
cowhide splits, coating of, for use in linings and exteriors of shoes 363
crust, examination of, for residuals from hide preservatives 273
determination of formaldehyde and glutaric aldehyde in 365
emulsified waxes for, preparation and application of 280
elastic-plastic properties of, fatliquoring effect on 200
environment protection in industry of, review on 324
fastness of, processing effect on 146
fat exudation from, inhibition of, with siloxanes 400
fibers, leather substitutes from, finishes for, butylamine-maleic anhydride-methylstyrene copolymers as 362
fibers, leather substitutes from polymeric binders and 328
fibers, leather substitutes from polymers or rosin and 362
fibers, matrix auto-reinforced organic material containing 366
fireproofing of, with antimony oxide and haloalkyl compounds and organophosphorus compounds 396
fire resistance of fireproofing agent-treated 1
fire resistance of, flame retardants for 399
flocking of, an adhesive backing, for leather substitutes 322

formaldehyde emission from, determination of 486
of furs, physical properties of, anisotropy of 117
of furs, wastes, triglycerides from, as plasticizers 367
fusion bonding of parts from vegetable-tanned, electron microscopy of 77
garment, manufacture of goatskin grain, tanning pretreatments and techniques in 484
goatskin, manufacture of Hubei-Road 279, 280
heat-resistant, for safety apparel 322
hydrolysis of, by protease 490
impregnation of, with polyamides, for gaskets and seals 325
insole, heat- and perspiration-resistant, review on, ... 487
ions eluted from, metal corrosion by 409
lambskin, whitespots in 399
lamination of, for decorative surfaces 487
leather substitutes from polyester fabrics and, for covers for sporting goods and steering wheels 323
lightfastness of, fatliquor effect on 455
lightfastness of, processing effect on 401
lightweight, from tanned oil membranes from leaf fats of mammals 284
manufacture of, antiseptics for, methyl esters of sulfonylpropenoic acids as 282
manufacture of, auxiliary agents for, review on 76
manufacture of, chromium-free wastes from, byproducts from 118
manufacture of, collagen characteristic effect on, review on 451
manufacture of, continuous mode in, for pollution abatement or economy 363
manufacture of, environmental regulations for, in Venezuela 419
manufacture of, in the year 2000 156
manufacture of, process control in, electric conductivity measurement in 355
manufacture of, quality control in 119, 120, 279
manufacture of, quality control in, certification of, in Italy 486
mechanical property testing and standards for, in European Community 486
mineral-tanned, retanning of, with aromatic sulfonic acids 202
objective measurement of subjective leather properties 487
optimization of processes in industry of 327
parts, fusion bonding of, scanning electron microscopy of 396
pentachlorophenol and sodium pentachlorophenate determination in by gas chromatography 280
pentachlorophenol as biocide in industry of, ban on use of, in Germany 76
pentachlorophenol determination in, by gas chromatography 118, 274
pentachlorophenol residue determination in, by high-performance liquid chromatography 280
pesticide determination in, by high-performance liquid chromatography 283
pigskin, manufacture of soft 147
pigskin, process control in manufacture of 325
pigskin, retanning effect on network structure and tensile properties of 201
pigskin, soft white, manufacture of 116, 402
pigskin upper, factors affecting fullness of 147
polymeric coating bonding to, attachment for tensile strength testing machine for determination of strength of 455
polyurethane foam bonded to, for automobile seat and furniture upholstery 368
powdered, coatings containing, for good durability 278
powdered, composites with polyurethanes, films and sheets from,

lamination of, for leather substitutes 284
powdered, leather substitutes from proteins and thermoplastics and 153
powdered, on surfaces of rubber golf club grips 326
powdered, polyurethanes containing, coatings, on polyamide fabrics, for leather substitutes 119
powdered, surface treatment of, with polyoctenylenes, for improved compatibility with plastics in leather substitutes 326
quality control in industry of 146
quality of, beamhouse enzyme effect on, review on 326
reactions of, with chitosan, review on 283
requirements and quality control of, review on 396
research and industry of, in Japan, review on 323
semifinished, fungicide treatment of 453
sheepskin and suede, waterproofing agents for, containing dibutyl phthalate and paraffin 244
sheepskin, cleaning of, fatliquors for 403
snakeskin, tanning and dyeing in production of, review on 274
soaking of, in water before wet finishing, for improved softness 404
soft donkey, manufacture of, lime coating in hide processing for 202
soft, manufacture of, from pigskins 328
soft white, manufacture of 367
soilproofing agents for, fluorosilicon compounds as 146
sole, manufacture of, minimization of harmful wastes from 403
split cowhide suede, manufacture of 402
split, laminates with textiles for leather substitutes, physical properties and water absorption by 321
sterilizing of, with ionizing radiation, ergonomic properties in relation to 483
suede garment, manufacture of 402
thermal denaturation of, thermodynamic analysis of 52
thermal stability of, moisture content effect on 275
thermal stability of, retanning effect on 150
treatment composition for, containing alkanes and fats and mineral oil and waxes 404
upholstery, for automobiles, flame resistance and windshield fogging of 399
upper, coatings for, aesthetic and hygienic properties of 452
upper, fullness and softness of, beamhouse processing effect on 147
upper, manufacture of, ecological hazards in 150
upper, manufacture of, from cowhide 118
upper, retanning of 203
upper, soft cowhide, manufacture of 402
upper, soft white, manufacture of, bleaching of wet-blue hides with potassium permanganate for 456
upper, tanned with Khlorsintem syntan, histology of 282
upper, wastes, recycling of 456
vulcanization compositions for pattern formation on, contraction and swelling of silicone rubber in organic solvents in 454
wastes, fibers, leather substitutes from rubber and 398
wastes, heating value of 402
waste, leather substitutes from ethylene-vinyl acetate copolymer and 404
waste, leather substitutes from, properties of, structure effect on 455
waste, particleboards from urea resins and wood and 153

waterproofed, prepn. of 200
waterproofing agents for, review on 450
wet processing in industry of, ecology in relation to 247
white and light, manufacture of 401
white, manufacture of 279
white, for volleyballs, discoloration of, prevention of 279
Leather substitutes
from chrome leather wastes and rubbers 452
colorfastness of, coating and materials for improved 457
current status of, review on 451
from ethylene-vinyl acetate copolymer and waste leather 404
finishes for, coatings containing poly(amino acid)s and polyurethanes for 323
flocking of leather on adhesive backing for 322
from laminated films and sheets of leather powder-polyurethane composites 284
from leather and polyester fabrics, for covers for sporting goods and steering wheels 323
from leather fibers and polymeric binders 328
from leather fibers and polymers or rosin 362
from leather fibers and rubber 398
from leather fibers, finishes for, butylamine-maleic anhydride-methylstyrene copolymers as 362
from leather textile laminates, physical properties and water absorption by 321
from leather wastes, properties of, structure effect on 455
from nonwoven materials and synthetic rubber, review on 450
nonwoven textile as bases for, dyeing of 484
from plastics and powdered leather, surface treatment of
powdered leather with polyoctenylenes for improved compatibility in 326
from polyamide fabrics coated with polyurethanes containing powdered leather or wool 119
from polyester fibers and polyurethanes, coatings for, from poly(amino acid)s
and polyurethanes 326
polymeric, wastes, recycled, as fat sorbents in fur rolling 203
from powdered leather and proteins and thermoplastic resins 153
Lesions
cockle, on New Zealand lambskins, histology of 39
Leveling agents
for dyeing of leather 151
for textiles, from chrome leather wastes hydrolyzates 452
LIA
Retanning/Coloring/Fatliquoring Seminar, 1993 395
LIAO, LONG-LI, Biography 353
Light
scattering of, in chain conformation determination in gelatin 118
scattering of, quasi-elastic, in chain conformation determination in gelatin 119
Lightfastness
of dyed leathers, organometallic compounds in improvement of 200
of leather, fatliquor effect on 455
of leather, processing effect on 401
of white leather from wet-blue hides bleached with syntans containing chromium oxide 147
Lignosulfonates
tanning with vegetable materials and, review on 244

Lime
coatings, on donkey hides, in processing for manufacture of soft leather 202
Liming
adsorption of mineral substances by dermis during 453
with aqueous polysulfide and thiosulfate solutions 204
enzyme-assisted 487
lipase use in 128
of pigskin for soft leather 147
rapid, pretreatment with water for, for soft pigskin 362
of small animal skins with metallic protease, sulfide-free 246
-soaking process, quality evaluation of 144
Lipase
in beamhouse processes 128
Lipids
from degreased skins, recycling of, in fatliquors 371
Liposomes
in dyeing of leather, stability of dye-liposome systems 459
Liquid crystals
orientation of, in gelatin 365
Luster
of furs, enhancement of, by graft polymerization of acrylic monomers onto hair surface, review on 450
Maceration
in gelatin manufacture, intensification of 277
MAGERKURTH, BERNHARD, Biography 310
Magnesium carbonate
in agents for increasing basicity of mineral tanning liquors 121
Magnesium oxide
in chrome leather shavings solubilization by enzymes at alkaline pH 201
coagulation-flocculation-sedimentation by, in chromium recovery from chrome tanning effluent 281
MAIRE, MAX S., Obituary 482
Maleates
non-acrylic coatings containing, curing of, with ultraviolet light 399
Maleic acid
esters, polymers, coatings for leather, crosslinking of, by ultraviolet radiation 20
isomerization of, to fumaric acid, for high-exhaustion chrome tanning 281
Maleic anhydride
polymers with butylamine and α-methylstyrene, as finishes for leather substitutes from leather fibers 362
isomerization of, to fumaric acid, for high-exhaustion chrome tanning 281
polymers with butylamine and methylstyrene, leather substitutes from leather fibers and 362
polymers with hydroxypropanesulfonic acid and styrene, as thickeners for gelatin solutions 368
Malonic acid
crosslinking of collagen with 333
Manganese
removal of, from gelatin, by ultrafiltration membranes 323

MANICH, ALBERT, Biography 481
Mannich reaction
of hides, chrome tanning in relation to 243
MARSAL, AGUSTIN, Biography 481
Masking agents
urotropin, in aluminum-titanium tanning 398
Mass spectroscopy
fast-atom-bombardment, in structure determination of vescalagin 76
Material Balance
in finishing with organic compounds, air pollution by solvents in 246
Maturation
of cattle hides, crosslinking in relation to, review on 326
Mechanical properties
of furs, artificial decomposition effect on 396
of leather, testing for, in European Community 486
Melamine resins
in tanning, review on 245
Melting
of gelatin, DSC study of 403
of gelatin gels, colorimetry of 116
Membranes
oil, from leaf fats of mammals, tanning of, for lightweight leather 284
ultrafiltration, metal removal from gelatin by 323
Mercury
ions, sorbent beads for, from keratin-containing poultry processing wastes 367
Metals
corrosion of, by ions eluted from leather 409
electrodeposition of, review on 149
ions, gamma ray-induced sol-gel transition of gelatin in relation to 360
removal of, from gelatin by ion exchange, for decolorization 323
removal of, from gelatin, by ultrafiltration membranes 323
Methacrylic acid
acrylic rubber stabilized by, coatings, for leather 455
graft polymerization of, onto hair surface of furs, for luster enhancement, review on 450
polymers, finishes containing, for leather splits 397
polymers with acetonitrile and acrylic acid and butyl acrylate, as retanning materials 489
polymers with butyl acrylate, adhesives, for drying of semifinished leather 485
Methanesulfonic acid
in pickling and tanning and dyeing 484
Methyl acrylate
polymers with casein, graft, in finishing 400, 488
N,N'-Methylenebisacrylamide
crosslinking with, of collagen 273
Methylenebis (salicylic acid)
as tanning aid in non-salt composite tanning 404
Methyl methacrylate
graft polymers with gelatin, finishes, plasticizers in, permeability and tensile strength in relation to 120

polymers, finishes containing, for leather splits 397
polymers with acrylonitrile and butadiene, rubber, methacrylic acid-stabilized, coatings, for leather 455
polymers with ethyl acrylate and ethylene glycol dimethacrylate, in ultrafine particulate aqueous emulsions, as finishes 364
polymers with gelatin, graft, as leather finishes 362
polymers with butylamine and maleic anhydride, as finishes for leather substitutes from leather fibers 362
polymers with butylamine and maleic anhydride, leather substitutes from leather fibers and 362
Mica
gelatin adsorption on, pH and sodium chloride effects on 363
Micelles
of keratin, aqueous solutions of 457
Microcapsules
heat-expandable, as softening fillers for leather 398
Microfibrils
of collagen, simulation of 3-dimensional structures of 325
Microscopy, electron
scanning, of fusion bonding of leather parts 396
Microwaves
drying of hides and leather by 120
MILACIC, RADMILA, Biography 233
Mineral oil
leather treating compositions containing fats and waxes and 404
Molding compounds
collagen powder-polyethylene, caking prevention of, by surfactants 450
Molecular structure
of polymeric fillers, leather filling effect n relation to 321
Molecular weight
of tannin fractions from bark of Picea Likiangensis Pritz 275
Monochloroacetic acid
determination of, in fur finishes 146
Montan wax
emulsified wax blends containing, for leather, preparation and application of 280
Morphology
changes of, in collagen structure of hides, review on 450
of collagen coagulates from solutions 360
MOZERSKY, SAMUEL M., Biography 310
Naphthalenedisulfonic acid
polymers with formaldehyde, reaction products with chromium hydroxide, for tanning 487
Naphthalenesulfonic acid
polymers with formaldehyde, reaction products with chromium hydroxide, for tanning 487
Naphthalenesulfonylpropenoic acid methyl ester
antiseptics, for leather manufacture 282
Naphthalenetrisulfonic acid
polymers with formaldehyde, reaction products with chromium hydroxide, for tanning 487
Naphthenic acids

alkylcarboxyethanolamine derivatives, as plasticizers for acrylic polymer coatings for leather 145
esters of ethylene glycol or propylene glycol containing surfactants, for sheepskins 453
glycol esters, fatliquors containing, sheepskin fur quality in relation to 454
glycol esters, fatliquors containing, sheepskin hair properties in relation to 454
Narthoplast K
oil, finishes containing, for shoe uppers, properties of 117
Neomycin
preservatives, for goat- and sheepskins 327
Neutrons
scattering of, quasi-elastic, in determination of self-diffusion of water in gelatin gels 120
scattering of, small-angle, in chain conformation determination in gelatin 118
Nitrocellulose
glazing of aniline upper leather with casein and 279
solvents for water-based emulsion of 329
Nonwoven materials
leather substitutes from synthetic rubber and, review on 450
Notes to Contributors 199
Nuclear magnetic resonance
two-dimensional, in structure determination of vescalagin 76
Nutria
furs, use of, review on 450
Obituary
Barton, Angus E. 482
Correia, Amado, Antonio P. 141
Frank, Tiberiu Samuel 482
Gassmann, Hans 36
Highberger, John H. 141
Jany, Joseph 317
Koehrmann, Richard H. 317
Maire, Max S. 482
Oilproofing
of leather, agents for, from fluorine-containing polyurethanes 247
Oils
dimethyl siloxane, as finishes 150
Olefins
production of, by thermal cracking of olefins, review on 327
Operation research
in tanning and leather processing, for control and optimization 146
Optimization
of chrome tanning by multiple recirculation of liquor 279
of deliming with carbon dioxide 403
of fatliquoring of sheepskins 453
of high-exhaustion chrome-tanning 402
of processes in leather industry 327
in tanning and leather processing, operation research in 146
of tanning, process control in 486
Organic compounds
bromine-containing, as intermediates n chemical synthesis, review on 274

Organic material
matrix auto-reinforced, containing leather fibers 366
Organic solvents
keratin solutions in 398
Organometallic compounds
in lightfastness improvement of dyed leathers 200
Organophosphorus compounds
in fireproofing of leather 396
Orientation
of liquid crystals in gelatin 365
Oxazolidine
derivatives, in tanning of goatskins 274
derivatives, in tanning of goatskins and sheepskins 274
Oxidation
bleaching by, of snakeskins 147
of paraffins, in synthesis of fatty acids, review on 326
Paper
adhesives for, from chrome leather wastes 452
Parachlor 250
in waterproofing by fatliquoring 145
Paraffin
oxidation of, in synthesis of fatty acids, review on 326
waterproofing agents from dibutyl phthalate and, for sheepskin and suede leathers 244
Paraffin waxes
chlorinated, fatliquors containing, for pigskin leather with good softness and smoothness 404
chlorinated, in waterproofing by fatliquoring 145
in cleaning-polishing towels for leather 398
emulsified wax blends containing, for leather, preparation and application of 280
PARRA, J. L., Biography 481
Particles
of collagen, emulsions in cottonseed oil, crosslinking of, with glutaraldehyde for use as carriers 366
colloidal, dispersity and electrokinetic potential of, in solutions of chrome tanning materials and fatliquors 484
colloidal, stability of, in chrome tanning material-fatliquor systems 488
Particle size
determination of, of acrylic binders for finishes, turbidimetric methods for 243
Pastes
sodium soap determination in, by potentiometry 245
Penetrator
tanning and unhairing in, injecting solutions under pressure in 75
Penicillium roqueforti
enzymes from, for unhairing of pigskins 401
Pentachlorophenol
biocides, in leather industry, ban on use of, in Germany 76
determination of, in leather, by gas chromatography 118, 274, 280
residues, determination of, in leather by high-performance liquid chromatography 280

Perchloroethylene
solvents, in pickling of sheepskins 283
Permeability
of gelatin copolymer finishes, plasticizer effect on 120
Perspiration
chromium elution from leather by 281
resistance to, of insole leather, review on 487
Persulfates
catalysts, for grafting of casein, for leather finishes 399
Pesticides
determination of, in hides and leather, by high-performance liquid chromatography 283
pH
adsorption of amphoteric polyelectrolytes in relation to 363
Pharmaceuticals
gelatin uses in, review on 149, 483
Phenol
polymers with formaldehyde and urea, syntans, containing chrome 148
polymers with formaldehyde, in fur manufacture 488
Phenolic resins
novolaks, sulfonated, leather substitutes from leather fibers and poly (vinyl acetate) and 328
Politan K, in fur manufacture 488
Phenols
chlorinated, determination of, in leather in small concentrations 246
pesticides, determination of, in hides and leather, by high-performance liquid chromatography ... 283
Phenolsulfonic acid
copolymers with dihydroxydiphenylsulfone and formaldehyde and urea, syntans 148
Phosphates
esters, sulfonated, salts, as fatliquoring agents 119
Phosphorus
compounds, reaction products with fluorine-containing epoxy compounds, as fatliquors 398
Phosphorylation
of castor oil-based fatliquors, for manufacture of sophisticated leathers 118
Photography
gelatins in, review on 149
Phthalic acid
derma structure and properties in relation to 452
hide elastoplastic properties and structure in relation to 150
Physicomechanical property
of gelatin in coiled conformation 151
Picea Likeangensis Pritz
tannins from bark of, molecular weight of fractions of 275
Pickling
of furs 453
of furs, simultaneously with tanning and fatliquoring 361
methanesulfonic acid in 484
of sheepskins, organic solvents in 283
of sheepskins, review on 450

Pigments
chrome yellow, preparation of, by lead acetate treatment of chrome tanning effluent 202
concentrates, for leather, anzymic treatment of 483
in drum dyeing, review on 488
Pigskins
deamidated collagen manufacture from 203
wet-white technology for, in garment leather manufacture 149
Pilot plant
design of, for collagen recovery from tanning wastes 146
Piperylene
polymers with styrene, block, epoxidized, for leather finishes 325
Pipes
steel, chromium-plated, corrosion of, by ions eluted from leather 409
Plasma
fur treatment with, dyeability and hydrophilicity in relation to 453
Plasticizers
alkylcarboxyethanolamine naphthenates, for acrylic polymer coatings for leather 145
in gelatin copolymer finishes, permeability and tensile strength in relation to 120
polymeric, for filling and finishing of leather 282
triglycerides, from fur leather wastes 367
Plastics
leather substitutes from powdered leather and, surface treatment
of powdered leather with polyoctenylenes for improved compatibility in 326
Polish oil
fungicides, containing Chinese herbs, for leather jackets 489
Politan K
phenolic resins, in fur manufacture 488
Pollution
abatement of, by continuous mode in tanning operations 363
control of, in chrome leather manufacture, research on, review on 245
prevention of, by pretanning with polymeric aldehydes 487
Poly(acrylic acid)
syntans, for better physical properties and less color 200
Polyamide fibers
dyes for, 1:2 chromium complex azo, navy blue 76
fabric, coated with polyurethanes containing powdered leather or wool, for leather substitutes 119
Polyamides
leather impregnation with, for gaskets and seals 325
wastes, recycled, as fat sorbents in fur rolling 203
Poly(amino acid)s
coatings containing polyurethanes and, for finishes for leather substitutes 323
coatings, containing polyurethanes, for leather substitutes 326
Poly (α, α'-dihydroperfluoroheptyl acrylate)
finishes containing, for sheepskins 453
Polyelectrolytes
amphoteric, adsorption of, pH and sodium chloride effects on 363
complexes, formation of, in tanning, reaction conditions effect on 243

Polyester fibers
leather substitutes from leather and, for covers for sporting goods and steering wheels 323
leather substitutes for polyurethanes and, coatings for, from poly(amino acid)s and polyurethanes 326
nonwoven, leather substitutes from synthetic rubber and, review on 450
Polyesters
-polyurethane, aq. dispersions of, coatings for leather and textiles 122
Polyethylene
linear low-density, leather substitutes from powdered leather and proteins and 153
molding compounds from collagen powder and, caking prevention of, by surfactants 450
Polyethylene glycol
in fatliquoring, leather drying in relation to 116
Polyethylene glycol nonylphenyl ether
in degreasing of goat- and sheepskins 400
Polyglycerols
in detanning of waste chrome leather 364
Polymerization
graft, of acrylic monomers onto hair surface of furs, for luster enhancement, review on 450
Polymerization catalysts
graft, persulfates as, for casein for leather finishes 399
Polymers
aq. dispersions of, as coatings for leather and textiles 122
coatings, bonding of, to leather, attachment for tensile strength testing machine for determination of strength of 455
dressing compositions from casein and 149
as leather fillers, molecular structure of, filling effect in relation to 321
unsaturated, containing amidosulfonic acid, as finishes 364
Poly(methacrylic acid)
as syntans, for better physical properties and less color 200
Polyoctenylenes
leather powder surface treatment with, for improved compatibility with plastics in leather substitutes 326
Polyoxyethylene
fatty acid esters, fatliquors containing, for pigskin leather with good softness and smoothness 404
Polyphenols
from common Acacia species (10) in India 280
Polypropylene fibers
nonwoven, leather substitutes from synthetic rubber and, review on 450
Polysulfides
in liming 204
Polyureas
-polyurethane, aq. dispersions of, as coatings for leather and textiles 122
Poly(vinyl acetate)
leather substitutes from leather fibers and sulfonated phenolic novolak resins and 328
Pomegranate
rinds of, wastes, tanning from 277
Potassium

removal of, from gelatin, by ultrafiltration membranes 323
Potassium dimethyldithiocarbamate
hide preservatives, crust leather examination for residuals from 273
Potassium permanganate
bleaching of wet-blue hides with, for manufacture of soft white upper leather 456
Poultry
processing wastes from, containing keratin, sorbent beads from, for mercury ions 367
Preservatives
for goat- and sheepskins 327
Pressure
swelling, equilibrium of, of crosslinked gelatin/water and carrageenan/water gels 276
swelling, equilibrium of, of crosslinked gelatin/water gels 276
Printing
of furs, discoloration prevention in 147
of leather, preparation for 148
Process control
in leather manufacture, measurement of electric conductivity in 325
in pigskin leather manufacture 325
in tanning and leather processing, operation research in 146
in tanning optimization 486
Propionic acid
reactions of, with chromium in chrome tanning, stoichiometry and extinction coefficients of complexes formed in 279
Propylene glycol
esters of fatty acids of naphthenic acids containing surfactants, for sheepskins 453
esters of fatty or naphthenic acids, fatliquors containing, sheepskin fur quality in relation to 454
esters of fatty or naphthenic acids, fatliquors containing, sheepskin hair properties in relation to 454
Protease
alkaline, in hide unhairing 283
bacterial and fungal and pancreatic, in bating 148
chrome leather shavings solubilization by, at alkaline pH 201
in hide bating, review on 274
hydrolysis by, of leather 490
metallic, sulfide-free liming of small animal skins with 246
mixtures of, for bating 400
softening of shaved wet-blue goatskin with 484
unhairing with, sulfide-free 244
Proteins
fillers containing, from chrome leather shavings, for retanning 275
of furs, amino acid composition of, review on 399
hydrolysis of, by enzymes 490
hydrolyzates, leather dressing with, for economical dyeing 121
interactions with vegetable tannins in tanning, review on 321
leather substitutes from powdered leather and thermoplastics and 153
removal of, from hides during brine curing 26
Pyruvic acid
hide treatment with, chrome tanning in relation to 243

Quality control
in leather and garment manufacture 279
of leather in Europe, review on 396
in leather manufacture 120
in leather manufacture, certification of, in Italy 486
in tanning and leather manufacture 119
in tanning and leather manufacture 146
Radiation
sheepskin fur properties in relation to 452
Rapeseed oils
fatliquors containing, for pigskin leather with good softness and smoothness 404
Rare earth chlorides
pretanning with, before chrome tanning 147
Recirculation
of chrome liquor, multiple, for optimization of tanning process 279
Recycling
of chrome leather wastes 277
of chrome liquors in chrome tanning 368
in chrome tanning, review on 117
of exhausted aluminum-titanium tanning liquors, ammonium sulfate concentration in 401
in leather industry, ecology in relation to 247
of lipids from degreased skins in fatliquors 371
of spent tanning liquors in chrome tanning of footwear bottoms 144
of tanning wastes, energy conservation by, review on 149
of unhairing effluent combined with alkali pretreatment, water pollution prevention by 276
of unhairing wastewater, sulfide conservation in 117
of upper leather wastes 456
of wastes and wastewater in tanneries 244
Research
on chrome leather processing and tanning and pollution control, review on 245
Resorcin
hide treatment with, chrome tanning in relation to 243
Rheology
of gelatin gels, review on 321
Rhodotorulla
in chrome leather and shoes 466
Rosin
leather substitutes from leather fibers and 362
Rubber
diene-nitrile, coatings, fluoropolymers in, for leather 145
golf club grips from, having powdered leather on surfaces 326
Rubber, butadiene-styrene
leather substitutes from chrome leather wastes and 452
leather substitutes from waste leather fibers and 398
Rubber, natural
leather substitutes from chrome leather wastes and 452
Rubber, silicone

in vulcanization compositions for pattern formation on leather, contraction and swelling of, in organic solvents 454
Rubber, synthetic
acrylonitrile-butadiene-methyl methacrylate, methacrylic acid stabilized, coatings, for leather 455
leather substitutes from nonwoven materials and, review on 450
Rumex hymenosepalus
roots, extraction of starch and tanning materials from 123
Saccharomyces cerevisiae
in chrome leather and shoes 466
Safety devices
apparel, heat-resistant leather for 322
Salicylic acid
derma structure and properties in relation to 452
Saliva
chromium elution from leather by 281
SCHOLNICK, FRANK, Biography 353
Seals
leather impregnation with polyamides for 325
Semicarbazides
polyurethanes, anionic sulfonated, finishing leather with 366
Sheepskins
Australian woolly, degreasing of, with nonionic surfactants, hydrophile-lipophile balance effect on 280
hair, fatliquor effect on properties of 454
preservatives for 327
processing of, review on 450
surface treatment of, with low-toxicity compositions 361
tanning of, with oxazolidine derivatives 274
Shoes
environment protection in industry of, review on 324
finishes for, review on 245
leather bottoms for, finishing of 361
prophylactic, chrome leather for 145
water-based finishes from acrylic and urethane polymers in industry of 150
yeasts in 466
Shrinkage temperature
of furs, gamma ray effect on 397
Silica
sols, in defleshing of hides 205
sols, in splitting of hides 76
Siloxanes
in cleaning-polishing towels for leather 398
dimethyl, oils, as finishes 150
for fat exudation inhibition from leather 400
leather pretreatment with, aniline dyeing in relation to 398
Simulation
mathematical, of structure formation in hide collagen in mineral tanning 145

of three-dimensional structures of collagen microfibrils 325
of three-dimensional structures of collagen triple helixes 324
Sizes
interactions with leather fibers 146
Snakeskins
bleaching of, by oxidation 147
processing of, for leather production, review on 274
Soaking
of furs 453
-liming process, quality evaluation of 144
lipase use in 128
of pigskin for soft leather 147
of salt-cured hides, trypsin effect on 207
of sheepskins, review on 450
Sodium
adsorption of, by dermis during liming 453
removal of, from gelatin, by ultrafiltration membranes 323
Sodium aluminosilicate
at end of chrome tanning with aluminum salts and chromium salts in spent pickle liquor 363
Sodium benzoate
preservatives, for goat- and sheepskins 327
Sodium carbonate
in chrome leather shavings solubilization by enzymes at alkaline pH 201
degreasing agents containing, for gooseskins 328
enzyme proteolytic activity in relation to 150
Sodium chloride
adsorption of amphoteric polyelectrolytes in relation to 363
in preservation of sheepskin furs 452
Sodium hydrosulfite
fur primary treatment with 363
Sodium hydroxide
in chromium leather shavings solubilization by enzymes at alkaline pH 201
Sodium pentachlorophenate
determination of, in leather, by gas chromatography 118, 280
Sodium phthalate
as tanning aid in non-salt composite tanning 404
Sodium soaps
determination of, in leather pastes, by potentiometry 245
Sodium sulfate
in chrome tanning, for leather for prophylactic shoes 145
Softness
of upper leather, beamhouse processing effect on 147
Soilproofing agents
for leather, fluorosilicon compounds as 146
Soil supplements
biosolids from tanneries as 339
Sols
-gel transition of gelatin induced by gamma rays, metal ion effect on 360

Solubilization
of chrome leather shavings by proteins at alkaline pH 201
Solution process
of gelatin in extruders 326
Solvents
air pollution by, in finishing with organic compounds, material balance in 246
in application of 1:2 metal complex dyes 203
collagen fibers structure in hides and leather in relation to 144
organic, in pickling and tanning of sheepskins 283
organic, tanning with syntans or tannins in 329
recovery systems for, for air pollution prevention 202
for water-based emulsion of nitrocellulose 329
Sorbents
beads, from keratin-containing poultry processing wastes, for mercury ions 367
for fats, recycled polymeric wastes for, in fur rolling 203
Sorption
of benzene vapor, derma structure effect on 452
Splitting
of hides, silica sol in 76
Sponges
from collagen 245
Sporting goods
golf clubs and tennis rackets, handle covers for, from leather substitutes from leather and polyester fabrics 323
golf clubs, grips for, from rubber having powdered leather on surfaces 326
volleyballs, white leather for, discoloration of, prevention of 279
Stability
of leather finishes, flexing effect on 74
Standards, legal and permissive
for leather in European Community 486
for wastewater limits for leather industry in Venezuela 419
Starch
extraction of, from canaigre roots 123
Steel
pipes, chromium-plated, corrosion of, by ions eluted from leather 409
Steering wheels
covers for, from leather substitutes from leather and polyester fabrics 323
Sterilization
of leather, with ionizing radiation, ergonomic properties in relation to 483
Strain
rate of, fracture behavior of collagen fibers in relation to 281
STREICHER, ROLF, Biography 310
Structure
of gelatin gels, review on 321
STUPAR, JANEZ, Biography 233
Styrene
polymers with casein, graft, for finishing 275

polymers with hydroxypropanesulfonic acid and maleic anhydride, as thickeners for gelatin solutions ... 368
polymers with piperylene, block, epoxidized, for leather finishes ... 325
Succinylation
of hides, chrome tanning in relation to ... 243
Sulfate ions
eluted from leather, metal corrosion by ... 409
Sulfides
conservation of, by recycling unhairing wastewater ... 117
Sulfodiphenol
polymers with formaldehyde and sulfophenol and urea, syntans ... 278
Sulfohydroxybenzoic acid
hide elastoplastic and structure properties in relation to ... 149
Sulfonic acids
aromatic, mineral-tanned leather retanning with ... 202
chromium reduction by, in preparation of chrome tanning materials ... 489
Sulfophenol
polymers with formaldehyde and sulfodiphenol and urea, syntans ... 278
Sulforicinate
plasticizers, in gelatin copolymer finishes, permeability and tensile strength in relation to ... 120
Sulfur
adsorption of, by dermis during liming ... 453
Surface
treatment of, of powdered leather with polyoctenylenes, for improved compatibility with plastics in leather substitutes ... 326
treatment of, of sheepskins with low-toxicity compositions ... 361
Surface waves
of agarose and gelatin gels, rigidity determination by ... 400
Surfactants
acrylic polymers of, lubricating properties of ... 277
in agents for increasing basicity of mineral tanning liquors ... 121
caking prevention of collagen powder-polyethylene molding compounds by ... 450
cationic, dyeing of sheepskin furs in relation to ... 488
collagen hydrolyzate-fatty acid reaction products as ... 247
dyeing of fur hair covering with acid dyes, surfactant effect on ... 483
fatliquors containing, for sheepskins ... 453
fatliquors containing, manufacture of ... 121
hair-side dyeing of sheepskin leather with disperse dyes in relation to ... 488
nonionic, in degreasing of Australian woolly sheepskin, hydrophile-lipophile balance effect on ... 280
protein hydrolyzates for ... 490
Swelling
pressure equilibrium of, of crosslinked gelatin/water and carrageenan/water gels ... 276
pressure equilibrium of, of crosslinked gelatin/water gels ... 276
of silicone rubber in vulcanization compositions for pattern formation on leather ... 454
Syntamol SNV
tanning with vegetable materials and, review on ... 244
Synthetic fibers
from regenerated collagen treated with tin dichloride for greater strength ... 326

Synthetic tanning materials
acrylic polymers as, for better physical properties and less color ... 200
acrylic polymers, containing chromium, for retanning ... 151
acrylic polymers, dispersing and surfactant properties of ... 277
chromium-containing, bifunctional ... 150
chromium oxide-containing, bleaching and light fastness properties of, on wet-blue hides ... 147
containing aluminum sulfate and chromium sulfate, for decreased pollution ... 328
dihydroxydiphenylsulfone-formaldehyde-phenolsulfonic acid-urea copolymers ... 148
formaldehyde-phenol-urea copolymers containing chrome as ... 148
formaldehyde-sulfodiphenol-sulfophenol-urea copolymers as ... 278
Khlorsintem, histology of upper leather tanned with ... 282
physical and structural properties of leather in relation to ... 401
tanning with, chrome-free, review on ... 487
Tanning
with acrylamides ... 273
aldehyde, amine reaction products with carbonyl compounds for ... 363
with aluminum salts, for chromium-free leather ... 486
with aluminum salts or syntans or titanium salts, chrome-free, review on ... 487
aluminum-titanium ... 398
aluminum-zirconium, of pigskins, for white soft leather ... 116
apparatus for, hermetically sealed ... 325
bound tanning materials in, reaction conditions effect on ... 243
with carbonyl compounds, for soft white leather ... 367
chrome-free alternative ... 149
combination, of sheepskins with aluminum salts and mimosa ... 367
combination, with vegetable extracts and zinc salts ... 486
continuous mode in, for pollution abatement and economy ... 363
de-, of chrome leather wastes in adhesives manufacture ... 452
de-, of waste chrome leather with polyglycerols ... 364
ecology in relation to ... 247
environmental regulations for, in Venezuela ... 419
of furs ... 453
of furs, simultaneously with pickling and fatliquoring ... 361
of goatskins and sheepskins with oxazolidine derivatives ... 274
of goatskins, with oxazolidine derivatives ... 274
history and current state of, review on ... 117
in India, environment in relation to, review on ... 273
leather fastness in relation to ... 146
with lignosulfonates and vegetable materials, review on ... 244
melamine resins in, review on ... 245
methanesulfonic acid in ... 484
mineral, structure formation in collagen in, mathematical model for ... 145
non-salt composite, sodium phthalate and methylenebis (salicylic acid) as tanning aids in ... 404
of oil membranes from leaf fats of mammals, for lightweight leather ... 284
operation research in, for control and optimization ... 146
optimization of, process control in ... 486
in Penetrator, injecting solutions under pressure in ... 75
of pigskins with syntans for soft leather ... 328

pretreatments and techniques, in manufacture of goatskin grain garment leather 484
pre-, with polymeric aldehydes, for pollution prevention 487
pre, with rare earth chlorides, before chrome tanning 147
protein interactions with vegetable tannins in, review on 321
quality control in 119, 146
re-, fillers for, from acrylic monomers and chrome leather shavings 275
re-, leather thermal stability in relation to 150
re-, of aniline leather, dyeing intensity and levelness in relation to 296
re-, of mineral-tanned leather with aromatic sulfonic acids 202
re-, of pigskin leather, network structure and tensile properties in relation to 201
re-, of shoe upper leather 203
re-, of soft white upper leather, bleaching of wet-blue hides with potassium permanganate for 456
of sheepskins, organic solvents in 283
of sheepskins, review on 450
of sheepskins, with aluminum salts and glutaraldehyde, chromium-free 455
of snakeskins, review on 274
with syntans or tannins in organic solvents 329
with syntans, physical and structural properties of leather in relation to 401
with titanium salts, acid effect on 456
wastes from, collagen recovery from, design of pilot plant for 146
wastes, recycling of, energy conservation by, review on 149
to wet-white stage 121
in the year 2000 156
Tanning materials
aluminum and chromium determination in, titrimetric 153
aluminum-chromium, preparation and properties of 485
aluminum-titanium liquors, exhausted, recycling of, ammonium sulfate concentration in 401
aluminum-titanium, stability of solutions of, hexamethylenetetramine effect on 484
N,N-bis (hydroxymethyl) benzoxamide as, for light-sensitive gelatin emulsion layers 202
chrome, preparation of, by chromium reduction with sulfonic acids 489
chrome, solutions of fatliquors and, colloid particles in, dispersity and electrokinetic potential of 484
chrome, systems with fatliquors, stability of colloidal particles in 488
chromium (III) complexes, review on 450
chromium phthalate, for sheepskin 453
chromium zirconium sulfate as, review on 367
containing dicyandiamide and(or) urea 457
dicyandiamide-formaldehyde copolymers containing aluminum as 456
extraction of, from canaigre roots 123
high-base masked, properties of 456
mineral liquors, agents for increasing basicity of, from diacids and magnesium carbonate and surfactants 121
penetration and deposition and fixation on hide fibers 489
re-, acrylic polymers as 489
re-, chrome shavings as 246
re-, from chromium-containing leather shavings 321
spent, recycling of, in chrome tanning of footwear bottoms 144
titanium salts, dermal properties in relation to 456

Tannins
from acacia and eucalyptus barks, diffusion of, in hides 454
from Acacia species in Kenya 324
chlorinated, adhesives, water-resistant 201
from common Acacia species (10) in India 280
as dyes in fur dyeing 76
interactions with proteins in tanning, review on 321
molecular weight of fractions of, from bark of Picea Likiangensis Pritz 275
Myrica, reactions of, with collagen 246
from pomegranate rind wastes 277
reactions of, with collagen 484
TEJEDA-MANSIR, ARMANDO, Biography 140
Tear strength
of leather substitutes from split leather-textile laminates 321
Tensile strength
of gelatin copolymer finishes, plasticizer effect on 120
of leather substitutes from split leather-textile laminates 321
testing machine for, attachment for, for determination of strength of polymer coating bonding to leather 455
Testing of materials
mechanical property, of leather in European Community 486
tensile strength, machine for, attachment for, for determination of strength of polymer coating bonding to leather 455
Textiles
adhesives and leveling agents for, from chrome leather wastes 452
coatings for, aq. polymer dispersions as 122
laminates with split leather for leather substitutes, physical properties and water absorption by 321
nonwoven, as bases for leather substitutes, dyeing of 484
Thermal deformation
in aging determination of leather 485
Thermal stability
of hides and leather, moisture contact effect on 275
of hides for chrome leather 203
of leather, retanning effect on 150
Thermodynamic analysis
of thermal denaturation of collagen 397
of thermal denaturation of hides and leather 52
Thermodynamics
of transition of gelatin to collagen, review on 278
Thickeners
for gelatin solutions, from vinyl polymers 368
Thiobacillus ferrooxidans
iron sulfate solution regeneration by, in chromium removal from waste chrome leather 147
Thioglycolic acid
wool dissolution by, in keratin manufacture 328
Thiophenols
pesticides, determination of, in hides and leather, by high-performance liquid chromatography ... 283

Thiosulfates
in liming 204
Thiourea
catalysts, for isomerization of maleic acid to fumaric acid in high-exhaustion chrome tanning 281
copolymers with formaldehyde, in condensation chrome tanning 145
Tin dichloride
regenerated collagen fibers treated with, for greater strength
Titanium
salts, recycling of exhausted tanning baths containing aluminum salts and, ammonium sulfate concentration in 401
Titanium salts
tanning materials, dermal properties in relation to 456
tanning materials from aluminum salts and, stability of solutions of, hexamethylenetetramine effect on 484
tanning with, acid effect on 456
tanning with, chrome-free, review on 487
Toluene
recovery systems for, for air pollution prevention 202
Towels
cleaning-polishing, containing paraffin waxes and siloxanes, for leather 398
Trichloroethylene
solvents, in tanning of sheepskins 283
Triethanolamine
plasticizers, in gelatin copolymer finishes, permeability and tensile strength in relation to 120
Trifluoroacetic acid
low-toxicity hide treatment composition containing 151
Triglycerides
from fur leather wastes, for plasticizers 367
Trypsin
biotinylated, soaking of salt-cured hides in relation to 207
UHLEMANN, OLGA, Biography 389
Ultraviolet radiation
crosslinking by, of acrylate-free coatings for leather 20
curing of non-acrylic coatings with, maleates and vinyl compounds in 399
Unhairing
alkaline protease in 283
of hides on living animals 362
of hides with Acremonium chrysogenum, enzymes in 454
of hides with enzymes 485
in Penetrator, injecting solutions under pressure in 75
of pigskins, enzymes from Penicillium roqueforti for 401
with protease, sulfide-free 244
with proteolytic enzymes from Acremonium chrysogenum 150
of salt-cured hides, trypsin in soaking effect on 207
wastewater from, alkali pretreatment and recycling of, water pollution prevention by 276
wastewater from, recycling of, sulfide conservation in 117
Upholstery
for furniture and automobile seats, from polyurethane foams bonded to leather 368

leather, for automobiles, flame resistance and windshield fogging of 399
Urea
derivatives, copolymers with formaldehyde, in condensation chrome tanning 145
in fatliquoring, leather drying in relation to 116
polymers with dihydroxydiphenylsulfone and formaldehyde and phenolsulfonic acid, syntans..... 148
polymers with formaldehyde and phenol, syntans, containing chrome 148
polymers with formaldehyde and sulfodiphenol and sulfophenol, syntans 278
tanning materials containing dicyandiamide and 457
Urea resins
particleboards from leather wastes and wood and..... 153
Urethane polymers
aqueous dispersions of, as finishes..... 278
cellular, bonded to leather, for automobile seat and furniture upholstery..... 368
coatings containing poly(amino acid)s and , for finishes for leather substitutes..... 323
coatings, containing poly(amino acid)s, for leather substitutes 326
coatings, containing powdered leather, for good durability 278
coatings for leather, crosslinking of, by ultraviolet radiation..... 20
coatings, for waterproofing of leather 485
composites with powdered leather, films and sheets from, lamination of, for leather substitutes... 284
containing castor oil, in primers for finishes..... 244
containing powdered leather or wood, coatings, on polyamide fabrics, for leather substitutes..... 119
dispersions, dressing of leather with 149
finishes containing, for sheepskins..... 453
finishes, water-based, in shoe industry..... 150
finishing with aqueous systems containing, review on 243
fluorine-containing, as oil- and waterproofing agents for leather 247
-polyester or -polyurea, aq. dispersions of, as coatings for leather and textiles..... 122
semicarbazides, anionic sulfonated, finishing leather with..... 366
wastes, recycled, as fat sorbents in fur rolling..... 203
Urotropin
finishes containing..... 363
masking agents, in aluminum-titanium tanning 398
Vegetable oils
fatty acid composition of, for use in chemical technology, review on..... 278
Vescalagin
from chestnut tanning extracts, structure of, determination of,
by mass spectroscopy and nuclear magnetic resonance..... 76
Vinyl acetate
polymers with ethylene, leather substitutes from waste leather and 404
Vinyl compounds
non-acrylic coatings containing, curing of, with ultraviolet light 399
polymers, coatings for leather, crosslinking of, by ultraviolet radiation..... 20
polymers, finishes containing, for sheepskins..... 453
Viscosity
of gelatin, heating effect on..... 485
Volatile organic compounds
emissions of, recovery of, by cryogenic methods 245
Vulcanization

compositions, for pattern formation on leather, contraction and swelling of silicone rubber in organic solvents in 454
Wallemia sebi
in chrome leather and shoes 466
Wastes
biosolids from tanneries as soil supplements 339
chrome leather, adhesives and leather substitutes and leveling agents from 452
chrome leather, chromium removal from, iron sulfate solution regeneration by Thiobacillus ferrooxidans in 147
chrome leather, collagen hydrolyzates from 403
chrome leather, detanning of, with polyglycerols 364
chrome leather, disposal and recycling of 277
chrome leather, enzymic decomposition of 380
chrome leather, gelatin or its graft copolymers from, as finishes 362
chrome leather, hexavalent chromium determination in blue shavings 221
chrome leather, incineration of 275
chrome leather, processing of, review on 324
chrome leather, shavings, as fillers and retanning materials 246
chrome leather shavings, fillers from acrylic monomers and, for retanning 275
chrome leather shavings, gelatin manufacture from 323
chrome leather shavings, retanning and filling agents from 321
chrome leather shavings, treatment of, for use in fiber materials 277
chrome leather, solubilization of, by enzymes at alkaline pH 201
chromium-free, from leather manufacture, byproducts from 118
from fur leather, triglycerides from, as plasticizers 367
household and tannery, wastewater seeping from, composition of 74
keratin-containing, from poultry processing, sorbent beads from, for mercury ions 367
leather, fibers, leather substitutes from rubber and 398
leather, leather substitutes from ethylene vinyl acetate copolymer and 404
leather, leather substitutes from, properties of, structure effect on 455
leather, particleboards from urea resins and wood and 153
pomegranate rinds, tannins from 277
prevention of, in sole leather manufacturing 403
from tanneries, heating value of 402
from tanneries, recycling of 244
from tanning, collagen recovery from, design of pilot plant for 146
from tanning, recycling of, energy conservation by, review on 149
upper leather, recycling of 456
Wastewater
seeping from household and tannery wastes, composition of 74
Wastewater treatment
alkali pretreatment and recycling, of unhairing effluent, water pollution prevention by 276
of chrome tanning effluent with lead acetate to give chrome yellow pigment 202
chromium recovery, from chrome tanning effluent, by coagulation-flocculation-sedimentation with magnesium oxide 281
with hydrochloric acid, for ammonium chloride removal in fatliquor manufacture 277
in leather industry, ecology in relation to 247
recycling of, in tanneries 244

recycling, of unhairing effluents, sulfide conservation in 117
Water
absorption of, by leather substitutes from split leather-textile laminates 321
collagen fiber structure in hides and leather in relation to 144
in hides and leather, thermal stability in relation to 275
in leather, hygroscopic substance effect on 116
leather soaking with, before wet finishing, for improved softness 404
pigskin pretreatment with, for rapid liming 362
self-diffusion of, in gelatin gels, determination of, by quasi-elastic neutron scattering 120
Water pollution
prevention of, by recycling unhairing wastewater combined with alkali pretreatment 276
Waterproofing
agents, aminated and maleated fatty derivatives as 153
agents, containing dibutyl phthalate and paraffin, for sheepskin and suede leathers 244
agents, for leather and furs, review on 450
agents, polymeric, reactive for leather 328
of case leather, simultaneously with dyeing 148
of leather 200
of leather, agents for, from fluorine-containing polyurethanes 247
of leather, by fatliquoring, chlorinated paraffin wax in 145
of leather, fluoropolymer finishes for 145
of leather, polyurethane coatings for 485
of leather, without fixation, review on 451
Water resistance
of chlorinated tannin adhesives 201
Waxes
emulsified blands, preparation and application of, on leather 280
emulsions of, for coat dyeing of leather 282
leather treating compositions containing fats and 404
Wearing apparel
leather, manufacture of goatskin grain, tanning pretreatments and techniques in 484
leather, manufacture of, quality control in 279
White spirits
collagen fiber structure in hides and leather in relation to 144
Windshields
fogging of, leather upholstery effect on, in automobiles 399
Wool
dissolution of, by thioglycolic acid, in keratin manufacture 328
dyes for, 1:2 chromium complex azo, navy blue 76
powdered, polyurethanes containing, coatings, on polyamide fabrics, for leather substitutes 119
WYLER, A., Biography 88
Xylene
solvents containing, for water-based emulsion of nitrocellulose 329
Yeast
in chrome leather and shoes 466
Zeolites
chrome tanning in relation to 483
synthetic, reactions of, with chromium in chrome tanning 489

Zinc salts
tanning with vegetable extracts and 486
Zinc sulfate
in chrome tanning, for leather for prophylactic shoes 145
Zirconium
salts, tanning of pigskins with aluminum salts and, for white soft leather 116
ZUGNO, LUIS A., Biography 233
